

– ABOUT THE HALLWAY PROGRAM –

The Hallway Café is a unique social enterprise that works with high-risk and at-risk youth aged 16-24 within an operational café setting. The program is designed to work with youth as they move through various stages on their way to independence and success.

Youth participate in a 17 week employment readiness program that focuses on the development of hospitality skills and employment traits that are common across all vocations, as well as life skills to enhance the everyday living of youth participants.

Working within the Café, youth will have hands on learning opportunities including using equipment such as a pizza oven, espresso machine and point-of-sale systems.

Youth will also develop crucial teamwork, communication, time management and customer service skills during their time in the program.

The Hallway Café provides a range of supports to youth including, one-on-one outreach support, employment pre-preparation, coaching, resume writing, job search, advocacy and follow-up.

Youth will also have access to our Fresh Start School conveniently located within City Hall. Fresh Start utilizes module based learning that allows youth to use a self-directed pace to earning credits towards their high-school education and preparing them for their long-term educational goals.

Whether youth decide to remain in the hospitality industry, return to school or explore other employment paths, The Hallway Café prepares them for future opportunities and challenges.

The Hallway Cafe Program

is a unique social enterprise that works on teaching at risk youth employment skills within an operational restaurant setting. The program focuses on developing hospitality skills, employment traits that are common across all vocations, and life skills to enhance the everyday living of all youth participants. The restaurant's philosophy of scratch cooking, food security and sustainability and environmental responsibility enriches their learning opportunities and understanding of responsible business practices.
